# AWAKENING TO THE EXTRAORDINARY

AN AFTERLIFE DREAM FABLE FEATURING THE SPIRIT OF OUR BELOVED PRINCE

## BY AUTHOR TRACEY ALEXANDRIA LYNCH

"Awakening to the Extraordinary" is a profound narrative that invites readers to join Tracey Lynch and Prince on a journey that transcends the boundaries of time and space. This exploration examines the teachings of modern spiritual luminaries such as Dr. Joe Dispenza, Abraham Hicks, and Marianne Williamson, offering transformative experiences that challenge conventional perceptions of reality.

The story centers around the concept of perception and its immense power to shape one's reality. Tracey and Prince guide readers through the process of seeing beyond the limitations of the 3D world, encouraging an embrace of the interconnectedness of all things. They introduce the concept of divine time, where past, present, and future coexist, allowing for a deeper understanding of reality that goes beyond linear time.

Through their dialogue, readers are introduced to practical steps for shifting their perception. These steps are designed to help heal past wounds, shift one's consciousness, and embrace a future brimming with infinite possibilities. The narrative emphasizes the importance of self-discovery and empowerment, encouraging readers to take an active role in creating their reality.

"Awakening to the Extraordinary" is a compelling invitation for readers to release past burdens and adopt a renewed perspective on life. The text offers practical tools and inspiration to help individuals align their reality with their highest intentions, guiding them on a transformative journey into 5D consciousness. By exploring their inner potential and the world around them, readers are encouraged to transcend traditional perceptions and embrace a deeper understanding of reality. The narrative challenges them to unlock their extraordinary potential, fostering empowerment and self-discovery. Ultimately, it invites readers to embark on a journey of awakening and transformation, co-creating a reality that aligns with their true desires and highest aspirations.

## JOURNEY AS AN AUTHOR

Tracey Alexandria Lynch has always been drawn to the world of literature and writing. From a young age, she immersed herself in the written word, only to face the discouragement of industry experts who advised her to confine herself to a single genre. Yet, Tracey's creative spirit could not be restrained by such limitations. Her pen wandered through diverse landscapes—chronicling the lives of puppies, the splendor of nature, reflections on spirituality, and the quest for sustainability.

In her quest for self-expression, Tracey reached a profound realization: true creativity thrives when one gives oneself permission to write authentically and without boundaries. Embracing this sacred space allowed her to break free from conventional structures and explore her passions fully. Her works reflect a tapestry of interests and insights, each piece a testament to her journey of self-discovery.

Tracey Alexandria Lynch is a writer whose work reflects a deep commitment to exploring meaningful themes and sustainable living. Her acclaimed book, *The Creation Principles*, set the stage for her journey into meaningful writing, establishing a foundation for her

explorations into purpose and creativity. She further expanded on these themes in *Donum: Creating a Sustainable Gifting Experience*, where she blended sustainability with everyday practices, demonstrating her dedication to integrating conscious living into her work.

In her latest book, *Awakening to the Extraordinary*, Tracey delves into the spiritual and mystical realms, drawing inspiration from her profound connection with Prince. This work reflects her evolving exploration of spirituality and consciousness. Currently, she is working on *Stick in the Window*, a memoir that will share her personal and intimate experiences as a caregiver, offering readers insight into her life and challenges. Throughout her varied writing, Tracey is driven by a singular mission: to fulfill the purpose she believes she was destined for. Her work serves as a vivid reminder that both writing and life are most powerful when they remain true to oneself.

**Q: 'Awakening to the Extraordinary' presents an invitation to embrace the extraordinary. What does 'extraordinary' mean to you personally?**

It means beyond the norm. Beyond what we have grown accustomed to seeing and accepting every day. I believe we become what we see. Therefore, in order to become something different, we must see differently. We need do nothing to be ordinary. We must purposefully change our lenses to evolve into an extraordinary mindset.

**Q: How did you develop the idea of combining an afterlife dream fable with practical guidance for personal growth?**

I never developed the idea. I never planned for it. The dream accosted me in such a vivid manner that I was compelled to record it. At the time, I had no cohesive idea. I had no plans for a story or book. I was marveling in the amazement of being chosen to receive all the messages the dream revealed.

**Q: What research or personal experiences did you draw upon while writing this book?**

I am continually studying and learning more about 5D and how to see beyond what is visible. I practice becoming who I am intended to be, achieving my highest purpose, and accomplishing what I was sent to this planet to do. That is my dream and that is the path I am on.

**Q: How does the theme of co-creating a new reality align with ur professional experiences in various industries?**

We are always co-creating. But are we co-creating how we desire? I am selective with whom I co-create. I am also in continuous co-creation with Universal power. I am tuning in to connect with that which I desire to attract to my life experience. It matters not whether it is personal or professional, my process of co-creation remains the same.

**Q: Can you describe a transformative moment in your life that directly influenced the themes in your book?**

When I was about seven years old, I had a vivid vision that I shared with my mother, describing it in great detail. At the time, she thought it was just a story and didn't take it seriously. Later on, the events I had seen unfolded just as I had envisioned, but we never really spoke about it again. As a result, I gradually distanced myself from that part of me. Now, with time and reflection, I've come to understand and trust that what I see is real.

**Q: What role does meditation play in your life, and how is it reflected in your book?**

Meditation shuts the brain off and silences voices. It allows us to connect with spirit and better connect to what we desire to attract. The fact that I was blessed to be the recipient of the messages from my dream are in itself, the ultimate manifestation.

**Q: How do you hope readers will change or grow after reading your book?**

Most of what is happening in our world is not visible to the natural eye. Believing in what we see is the crux of the manifestation dilemma. I hope readers can believe more greatly in what they cannot see, what has not yet manifested because the seen requires no faith.

**Q: What are some of the key challenges people face when trying to release the burdens of past, according to your book?**

Prince said that "We have the ability to transcend the ordinary and access the extraordinary. It is a journey of empowerment and co-creation. It is where we embrace our infinite selves. It is where we step into the abundant flow." Without this journey we remain frozen in time and cannot release our pasts because we are frozen in them.

**Q: How did your family and personal relationships shape the writing of "Awakening to the Extraordinary"?**

The people around me serve as a mirror, helping me see myself more clearly. However, I don't let others define who I am; I know who I am within.

**Q: What has been the most rewarding feedback you have received from readers of your book?**

The most rewarding feedback I've received is that my book effectively condenses complex concepts about time, drawing insights from various thought leaders, and presents them in a way that's easy to understand and engaging to read."

**Q: As a business strategist and mentor, what parallels do you see between business growth and personal spiritual growth?**

I didn't initially set out to be a professional writer or entrepreneur; I simply sought to be true to myself and follow where that led me. The principles I use to connect with source energy are the same ones I apply in business. The growth in both areas stems from authenticity, intuition, and a deep commitment to purpose.

**Q: How do you integrate your love for learning and teaching into your writing process?**

I love relying on my team of mentors and teachers like Joe Dispenza and Abraham Hicks. I've studied so deeply into their intricate thought models, that they have become part of my DNA and how I perceive the world and react within it. My deep love for learning shapes everything I do.

**Q: What significance does the concept of time hold in your book, and how should readers perceive time in their journey of personal growth?**

Becoming fully capable in our relationship with time can allow us to see through obstacles, rise above challenges and overcome the elements of our past that might be blocking our future. Time is infinite and creating deep emotional connection to our future is what collapses time and allows the quantum leap.
